

# **Guts of Glory**

## **Print & Play**

### **version 0.2 (8.29.12)**

Welcome to the Guts of Glory Print & Play! This pdf provides almost everything you need to play the game, but you'll need to do some setting up first...

- 1) Print out the cards and the board. We recommend white card stock.
- 2) Cut out the cards along the lines. If you have card sleeves, sleeve the Foods and Condiments. If not, no worries: just make sure to cut the cards evenly, so that they're easy to shuffle and not easily distinguishable from the back. You won't need to sleeve the Glory cards.
- 3) Get 20 or so coins to use as chew tokens. Dimes are best; pennies will do.
- 4) Get two meeples or other pawns to use as player tokens.

All right, you're ready to play! For further instructions, go to [www.gutsofglorygame.com](http://www.gutsofglorygame.com), which has a rulebook, tutorial video, and much, much more!
